

XELLIA COPENHAGEN

A DEDICATED ASEPTIC MANUFACTURER IN DENMARK

Xellia Copenhagen offers contract manufacturing services for lyophilized products and products requiring aseptic fill capabilities. The Copenhagen site operates alongside Xellia's other manufacturing plants in Cleveland, USA; Budapest, Hungary; and Taizhou, China as well as our centralized laboratory service in Budapest, as part of its vertical integration strategy.

With over 115 years of experience, Xellia is a world-leading trusted supplier of several important established anti-infective drugs, comprising active pharmaceutical ingredients as well as injectable products.
