Wear personal protective equipment to avoid exposure – see section 8. Avoid generation of dust.

### 6.2 ENVIRONMENTAL PRECAUTIONS:

**Water spill:** Do not empty into drains.

**Land spill:** Vacuum material with appropriate dust collection in place. Be aware of potential for dust explosion when using electrical equipment. If a vacuum is not available, lightly mist material and remove by sweeping or wet wiping. Wear appropriate equipment including eye protection, to avoid exposure.

**Release notes:** If the spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. In the USA, contact the USA Coast Guard National Response Center toll free 800 424 8802.

### 6.3 METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING UP:

Contain dry material by lightly misting with water, followed by sweeping carefully so as not to generate dust, or vacuuming. Ensure the vacuum is fitted with an appropriate dust filter so dust is not re-introduced into the air. Be aware of the potential for dust explosion when using electrical equipment.

Engineering controls are recommended to ensure adequate ventilation such that exposures do not exceed 1mg/m<sup>3</sup> for an eight-hour time weighted average exposure. With adequate ventilation, respiratory protection may not be needed.

In the absence of adequate ventilation, suitable respiratory protection is required. The need for additional personal protective equipment including respirators, eye, and skin protection should be based on a job-specific risk assessment. Additional personal protective equipment may include chemical-resistant gloves and body covering, goggles, and face shield. Adequate eye protection is always required.

**Work hygienic practices:** Facilities storing or using this material should be equipped with an emergency eyewash and safety shower. Good personal hygiene practices should always be followed.

### 7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES:

Keep dry and away from sources of ignition. Below 25°C (77°F) for up to five years in original unopened sales container.

For Denmark: Store securely, inaccessible for unauthorised persons, separate from food, feedstuff etc.

### 7.3 SPECIFIC END USES:
